Subject: Follow-up question on the Council's lack of transparency

In response to my written question E-012049-15 on the lack of transparency in the Council and its non-participation in the Transparency Register, the response in writing from the Council states that the competent Council's preparatory body had 'examined several times the issue on a possible Council participation in the current voluntary Transparency Register' but that there 'remain some concerns' and the participation of the Council 'will need to be discussed further'.

Can the Council disclose in detail what concerns the Council has with the Transparency Register?

If not, why not?
