

**Question for written answer E-015151/2015
to the Commission**
Rule 130
Esteban González Pons (PPE)

Subject: Child poverty

In Europe more than one child in four is at risk of poverty. According to Eurostat figures, 27.7% of children in the 28 EU Member States are in that situation, which has been made worse in recent years by the economic crisis.

Has the Commission considered intensifying efforts in the five areas for action laid down in the European platform against poverty and social exclusion, bearing in mind that this is one of the seven flagship initiatives of the Europe 2020 strategy?
