

**Question for written answer E-014978/2015**  
**to the Commission**  
Rule 130  
**Jill Seymour (EFDD)**

Subject:     Single European Sky

With the Single European Sky project pressing forward, what issues does the Commission believe will arise when one Member State's air traffic control takes industrial action and goes on strike?

For example, if French ATC goes on strike what impact would it have under the SES on other Member States?
