Subject: Drone attacks by the USA

It is reported in the media that the USA is carrying out drone attacks on third countries from EU soil (e.g. the Ramstein military base in Germany). The targets are said to be in various countries (e.g. Somalia, Afghanistan and Pakistan). In the province of Waziristan (in Pakistan) alone, more than 2 500 people are said to have fallen victim to these attacks, including around 200 children.

1. From which military bases in the EU are drone attacks being carried out?
2. How many casualties (people killed or injured) have there been and, among them, how many civilians have been killed?
3. What is the legal basis for attacks on States with which no EU Member State is at war?
