Subject: The European emergency number and car-sharing

In recent years, car-sharing has become a widespread practice in Europe. Indeed, car-sharing is both environmentally friendly and cost-saving. According to Article 26(6) of Directive 2009/136/EC, 'Member States shall ensure that citizens are adequately informed about the existence and use of the single European emergency call number "112", in particular through initiatives specifically targeting persons travelling between Member States'.

As car-sharing now concerns a large number of travellers in Europe, has the Commission planned to coordinate an awareness campaign on the 112 emergency number with car-sharing companies in the Member States?
