

**Question for written answer E-015238/2015  
to the Commission**

Rule 130

**Roberta Metsola (PPE)**

Subject: Ocean energy across European regions

European regions are world leaders in pioneering ocean energy, but risk losing that status to international competitors unless public support for the technology is stepped up.

Can the Commission provide information on whether it will take action to further incentivise the use of ocean energy across European regions?
