Subject: VP/HR - Montenegro and NATO

What view does the VP/HR take of NATO's invitation to Montenegro to join the alliance? Would she not agree that the threats currently facing Europe have nothing whatsoever to do with the old East-West divide and the historically flawed obsession with still seeing Russia as the enemy of the US (and its vassal states)? Can anyone deny that the invitation made to Montenegro is just another example of the US imposing its will on the international community in the context of the trade war being waged against Russia by the global financial elite?

Would the VP/HR not agree that Islamic State, Islamic fundamentalism and Islamist terrorism are all pressing reasons for cooperating with Russia in order to ensure the safety of our citizens, rather than provoking it yet again to further US interests?

It is almost as if Montenegro has been invited to join NATO in order to fuel further tension between Russia and Europe and distract attention from the real threats currently facing us.
