

**Question for written answer E-015403/2015
to the Commission**
Rule 130
Edward Czesak (ECR)

Subject: Implementation of the Europe 2020 Strategy

The Europe 2020 strategy is an overarching, long-term European Union growth and jobs strategy built around objectives of which we are aware. Having read through the relevant documentation, I should like to put the following questions:

1. When will Parliament receive information from the Commission on the result orientation of, and the concrete contribution made to, the Europe 2020 objectives by the cohesion policy in the 2007-2013 programming period? The conclusions drawn could be useful for the ongoing delivery of the strategy and in any assessment thereof.
2. Could the Commission provide information on the plans for and costs of a web-based tracking system to identify cases in which European Structural and Investment funding has been combined with funding from Horizon 2020, the European Fund for Strategic Investments and the other EU-funded programmes?
