

**Question for written answer E-007826/2015/rev.1
to the Commission**
Rule 130
Steven Woolfe (EFDD)

Subject: Drug-resistant TB and immigration

According to the UK's Parliamentary Office of Science and Technology, the presence of TB in the UK, including drug-resistant TB, is a product of immigration (see Houses of Parliament Parliamentary Office of Science and Technology Post Note Number 416 of July 2012).

In light of this, can the Commission inform us if the restriction to immigration on the ground of public health risks exists in some Member States?
