

**Question for written answer E-015581/2015  
to the Commission**  
Rule 130  
**Isabella Adinolfi (EFDD)**

Subject: Use of European funding by the city of Salerno

On 9 April 2015, Written Question P-005646/2015 was tabled, reiterating the requests made in Question E-007748/2014, as no substantive reply had been given to the latter.

According to the Commission's latest reply, of 12 May 2015, on the basis of the information supplied by the managing authority, none of the sites indicated is currently affected by seizures or judgments of the Italian State Council, as had on the contrary been indicated.

However, the claims concerning these latter circumstances would seem to have been contradicted, on the one hand, by the existence of judgment no 6223 of 23 December 2013 of the Sixth Division of the State Council<sup>1</sup> and, on the other hand, by the seizure ordered by Salerno Public Prosecutions Department in connection with the investigation which it has launched (R.G. no 13095/200). Moreover, the latter circumstance seems to be confirmed by the order issued by Salerno Court in November 2015 to release the areas 'Piazza della Libertà – Piazza e parcheggi' for the purpose of carrying out work to enclose and secure the works site.

Is the Commission aware of the above facts and circumstances, which seem to contradict the information supplied to it by the managing authority?

What specific measures will the Commission take in relation to the managing authority and, for its own protection, to prevent any recurrence of similar circumstances?
