Subject: Follow-up to the Commission consultation on a European eco-label for fishery and aquaculture products

Article 36 of Regulation (EU) No 1379/2013 stipulates that 'After consulting Member States and stakeholders, the Commission shall, by 1 January 2015, submit to the European Parliament and to the Council a feasibility report on options for an eco-label scheme for fishery and aquaculture products, in particular on establishing such a scheme on a Union-wide basis and on setting minimum requirements for the use by Member States of a Union eco-label.'

1. The Commission recently published a summary of its public consultation on a European eco-label for fishery and aquaculture products. Has it yet consulted the Member States on the subject?
2. When does it intend to publish the feasibility report on options for an eco-label scheme for fishery and aquaculture products, which, according to the legislation, was scheduled to appear on 1 January 2015?
