Subject: Aid programme for refugees in Turkey

At the informal meeting which took place in Valletta on 12 November 2015, the European Commission proposed implementing an aid plan for the refugees currently in Turkey. This aid plan will be provided to the Turkish Government and will come out of the EU budget (EUR 500 million) along with contributions from the Member States (EUR 2 500 million).

In this context, how will the Commission ensure that these funds are actually used to help the refugees?
