Subject: State aid - Ireland - Case C31/07 - EU Commission Final Decision of 15 October 2014

Can the Commission state the reason why the EU Commission's Final Decision of 15 October 2014 did not include the responses of the Irish authorities to the question raised by the Commission in its Opening Opinion of September 2007, namely to state the justification for not putting out to competitive tender the school transport services purchased by the Department of Education and Skills from Bus Éireann, and will the Commission now publish each contemporaneous justification given by the Irish authorities at the time?
