Rule 130

Subject: Implementation of the EU agenda on migration

During Parliament's plenary session of 27 October 2015, President Juncker announced the decision to apply the Stability and Growth Pact with a flexible interpretation, based on a country-by-country evaluation, for Member States demonstrating 'extraordinary effort' in managing migration. Sweden receives the highest number of refugees per inhabitant, with numbers reaching 190 000 so far this year, and the highest number of unaccompanied minors.

- As the Stability and Growth Pact concerns the eurozone, how will the Commission ensure that there is no discrimination in terms of incentive measures between the Member States showing solidarity?
- What complementary measures will the Commission adopt to encourage those non-eurozone Member States, such as Sweden, which are demonstrating extraordinary efforts in managing the migration crisis?
- How will the Commission ensure that benefits provided as a result of flexibility in the Stability and Growth Pact will not weaken the path to reforms, and that the resources will be used effectively?
