

**Question for written answer E-015038/2015
to the Commission**
Rule 130
Victor Negrescu (S&D)

Subject: Environmental awareness

Even though the Commission has shown support for the electric car industry by proposing a directive on the deployment of alternative fuels infrastructure, electric cars account for only 0.6 % of the overall EU automobile market.

From the Commission's perspective, what would be a potential measure to increase the popularity of electric car usage within the EU?
